

ICP'S MEDICAL MANAGEMENT DEPARTMENT INTRODUCES A NEW WEB PORTAL FOR HONORHEALTH EMPLOYEE PLAN (HHEP)

GO LIVE DATE : 04/03/2023

ICP is excited to announce AutoAuth. This upgraded system will allow users to submit and view the status of prior authorization requests via ICP's secure web portal for HHEP patients. AutoAuth will be accessed via a secure log-in.

All requests will be submitted via the portal, however, AutoAuth will offer automatic approvals for the following procedures:

- Hernia Repairs
- D&C (Dilation and Curettage)
- DME Purchases (Glucose Monitoring)
- Varicose Vein (Legitation, Endovenous Ablation, Stab Phlebectomy, & Duplex Scan)
- Cataract & Retinal Detachment
- Fractures (Open/Closed Treatment)
- Prosthetics & Orthotics (Cranial Remolding Orthosis)
- MRI's

This will allow requesting providers and/or facilities to receive approvals for in-network services upon submission – automatically without having to wait for an approval (when all criteria are met)

Additional procedures for automatic approvals will be added quarterly

Visit icppatient.com/toolsandresources for a recorded live demo or for a step-by-step PDF.
